RE: Curtailment of Ground Water Diversion, Water Right No. 37-0496

Dear Water User,

The records of the Idaho Department of Water Resources (IDWR) show that you are the owner of the above referenced water rights(s) subject to an approved transfer or permit authorizing diversion of ground water that is contingent upon the availability of surface water from the Big Wood River (or tributaries to the Big Wood River.) Specifically, the above water right(s) includes a condition that limits the diversion of ground water to those times water is available for diversion under the rights(s) and priority from the original source, Big Wood River (or tributaries.) The right is also subject to regulation and control by the watermaster of State Water District No. 37, Big Wood River and tributaries.

The priority date of the above referenced water right(s) has been cut and is no longer available for delivery or mitigation purposes.

The purpose of this letter is to notify you that you must immediately cease diversion of ground water and use under the above referenced water right(s). As Watermaster of District 37 we will be checking to make sure there is compliance with this notice as well as terms and conditions of the water right(s). As Watermaster I have the authority to shut off any use that can not be delivered. Failure to comply with this notice may result in the issuance of a Notice of Violation and Cease and Desist Order from IDWR. Such orders may carry certain civil penalties.

IDWR and Water District 37 will appreciate your attention and cooperation in this matter given the existing drought conditions.

If you have any questions feel free to call me.

Sincerely,

Specifically, the above water right(s) includes a condition that limits the diversion of ground water to those times water is available for diversion under the rights(s) and priority from the original source, Big Wood River (or tributaries.) The right is also subject to regulation and control by the watermaster of State Water District No. 37, Big Wood River and tributaries.

The priority date of the above referenced water right(s) has been cut and is no longer available for delivery or mitigation purposes.

The purpose of this letter is to notify you that you must immediately cease diversion of ground water and use under the above referenced water right(s). As Watermaster of District 37 we will be checking to make sure there is compliance with this notice as well as terms and conditions of the water right(s). As Watermaster I have the authority to shut off any use that can not be delivered. Failure to comply with this notice may result in the issuance of a Notice of Violation and Cease and Desist Order from IDWR. Such orders may carry certain civil penalties.

IDWR and Water District 37 will appreciate your attention and cooperation in this matter given the existing drought conditions.

If you have any questions feel free to call me.

Sincerely,

RE: Curtailment of Ground Water Diversion, Water Right No. 37-0604

Dear Water User,

The records of the Idaho Department of Water Resources (IDWR) show that you are the owner of the above referenced water rights(s) subject to an approved transfer or permit authorizing diversion of ground water that is contingent upon the availability of surface water from the Big Wood River (or tributaries to the Big Wood River.) Specifically, the above water right(s) includes a condition that limits the diversion of ground water to those times water is available for diversion under the rights(s) and priority from the original source, Big Wood River (or tributaries.) The right is also subject to regulation and control by the watermaster of State Water District No. 37, Big Wood River and tributaries.

The priority date of the above referenced water right(s) has been cut and is no longer available for delivery or mitigation purposes.

The purpose of this letter is to notify you that you must immediately cease diversion of ground water and use under the above referenced water right(s).
